

An Intuitive Learning Management System (LMS) tailor-made for *nonprofits and associations*.

Create, repurpose, and monetize educational content to provide greater value to your learners. Inspire them to begin or continue their educational journeys with comprehensive curriculum development, certifications, AMS integration, knowledge sharing, social learning, and a mix of on-demand and live events.

Inspire Your Members with *Innovative* Learning Experiences

Integrated Webinars, Webcasts, & Virtual Conferences

Elevate comes with a native web conferencing and registration platform that can be customized to match your brand and creates a seamless integration for all of your webcasting content.

Custom & Responsive Design

Elevate incorporates your unique styling and layout to provide a seamless user experience.

Seamless Integrations

Single Sign On, Registration and Data API's helps create easy to navigate learning experiences. We currently integrate with a long list of AMS's including ACGI, Abila, Protech, Aptify, Personify, Euclid, MemberSuite, and more.

Comprehensive Reporting

Track learner progress, credits, attendance to registrations, revenue generation, file access, and more.

Community Platform

Each learning opportunity incorporates a discussion area where peer networking and collaboration can occur and turns a webinar into a much more significant learning opportunity.

E-Commerce & Registration

Categorize, segment, price, and discount your organization's learning programs including Subscription Packages, Pricing by Member Status, Role or Chapter, Discounts, and Product Bundling.

Individualized Learning

Elevate delivers customized experiences based on learner preferences, member status, or roles, providing content that is meaningful and relevant to each individual learner.

Flexible Configuration

Elevate is much more than a textual list of course titles. Our robust page widgets allow you to build and dynamically layout each piece of content, creating a space for learning that will keep your members coming back for more.
